

YOUR WIND ENERGY EXPERTS

Originally set up to develop civil wind farms, today ee-Nord plans and manages wind farms of all types and sizes, from the first to the very last step.

Your benefits at a glance

- ✓ We have been pioneers since the beginning – 25 years of experience in the wind energy industry
- ✓ Our consulting services and areas of competence can be contracted individually
- ✓ Active climate protection through the production of environmentally friendly energy

Our long-standing network of engineering firms, banks, wind turbine manufacturers and authorities enables you to find the right contacts quickly. We consult with you on the development and implementation of your project, as well as on the technical operation of the completed wind farm. Let's make wind together! We are happy to consult with you.
